

Explanations of trailer types:

Normal trailer dimensions - 13.6 metre (L) x 2.42 metres (W) x 2.45 metres (H)

Tilt trailer - Curtain sided trailer which open on both sides. Steel back doors.

Box trailer - Rigid sides and top. Open only through back doors.

Euro Liner - Like a tilt with a sliding roof for loading if required through the roof area.

Tautliner - Normally canvas sides which slide open and steel roof.

Fridge trailers (Reefers) - Normally 12 metres in length. Temperature control units.

Tail Lift - Mechanical devise attached to rear of vehicle for lifting product to/from ground level
